## Not without my fries!

We only serve the very best!

The golden-yellow fried potato stick has many names - in gourmet circles (as is the case with us!) it is also known as the Pom Fritz. According to their complex history, Pom Fritz(s) are said to be of French origin.

Is that true? I don't know. Anyway, they're crispy. Our potato sticks come, fresh, directly to your table - exactly where they belong!

## The secret of Schümli Coffee ...

lies in the preparation at Cafe Extrablatt!

We have one of Europe's most modern coffee machines. In contrast to the conventional filter process, the coffee produced by our coffee machine is not 100 degrees, but every cup is freshly brewed at 11 bar pressure and maximum 94 degrees and it all just takes a few seconds. Try it for yourself, you will be amazed.

*Did you know the artificially caused half-life of coffee cups is just 25 days? To the right you will see a picture showing the required constant.*
